Professional experience

NASA Jet Propulsion Laboratory <i>NASA Postdoctoral Fellow</i>	Pasadena, USA <i>2014–Present</i>
California Institute of Technology <i>Visting scholar (TAPIR group)</i>	Pasadena, USA <i>2014–Present</i>
Institute of Astronomy, University of Cambridge <i>PhD candidate</i>	Cambridge, UK <i>2010–2014</i>

Education

Institute of Astronomy, University of Cambridge <i>PhD (Astronomy)</i>	Cambridge, UK <i>2010–2014</i>
University of Oxford <i>MPhys, First Class</i> Graduated 1 st in Jesus College, 4 th across University	Oxford, UK <i>2006–2010</i>

Doctoral Thesis

Title: *Exploring the cosmos with gravitational waves*

Supervisor: Dr. Jonathan R. Gair

Description: A new Bayesian hierarchical modelling scheme is introduced to use compact-binary gravitational-wave standard sirens to infer the mass-distribution of the binary population, the progenitor star-formation rate, and cosmological parameters. Advanced pulsar-timing array techniques are developed to map the nanohertz gravitational-wave sky through a parametrized overlap-reduction function, and large accelerations to the Bayesian inference of single supermassive black-hole binary searches are proposed.

Grants & Funding

“New Directions and New Opportunities for NANOGrav Astrophysics”: Awarded \$11k for a proposal on behalf of the Astrophysics Working Group of NANOGrav. Funding will ensure undergraduate/graduate students and outside experts can attend a sprint week in March 2017 to advance several key areas of interest, and to achieve rapid progress on collaboration projects.

Awards & Prizes

2015: International Pulsar Timing Array (IPTA) Steering Committee Prize — “Honourable Mention”
2015: Gravitational Wave International Committee (GWIC) Thesis Prize — “Honourable Mention”
2014: NASA Postdoctoral Fellowship (JPL)
2014: Royal Astronomical Society Travel Award — £750
2013: Royal Astronomical Society Travel Award — £700
2012–2014: Christ’s College (Cambridge) Travel Grants [various; total exceeds £1k]
2010: Science and Technology Facilities Council (STFC) — full PhD studentship award
2008: Examiner’s Prize, Oxford Physics Speaking Competition
2007: Oxford Physics department prize for laboratory work
2007–2010: Undergraduate Scholar of Jesus College, Oxford
2006–2010: Regularly awarded Oxford undergraduate departmental and college examination prizes

Teaching experience

Jun–Aug 2016: Co-supervisor of Caltech summer undergraduate student
May 2016: Lecturer for Caltech’s TAPIR gravitational-wave class
Mar 2016: Co-organizer of student workshop at NANOGrav Spring meeting
Sep 2015: Lecturer for NANOGrav detection-group workshop at Caltech
Jun 2015: Lecturer at “CSI PTA” Aspen summer workshop
2011–2013: Supervisor for Cambridge Part II undergraduate students in RELATIVITY
2011: Prepared computing coursework for Cambridge Part II undergraduate students

Professional Service & Outreach

[Reviewer for international journals](#).....

Monthly Notices of the Royal Astronomical Society (MNRAS), Physical Review D (PRD)

[Conference organization](#).....

Oct 2016: Chair of SOC for NANOGrav Fall meeting at University of Illinois Urbana-Champaign

Mar 2016: SOC and LOC member for NANOGrav Spring meeting at Caltech

Mar 2016: Co-organizer of NANOGrav student workshop at Caltech

Mar 2014: SOC and LOC member for British Gravity meeting (BritGrav) at Cambridge, UK

[Outreach](#).....

2016: Featured gravitational-wave expert at NASA’s “Ticket to Explore JPL” event

2013: Presentation at Cambridge’s Institute of Astronomy Open Day

2012–2014: Presentation to prospective students (Institute of Astronomy graduate interviews)

2012: Outreach talk at Institute of Astronomy public-observing evening

2011: Presentation at Cambridge’s Institute of Astronomy Open Day

Professional affiliations

North American Nanohertz Observatory for Gravitational-waves (NANOGrav): Full member

European Pulsar Timing Array (EPTA): Member

International Pulsar Timing Array (IPTA): Member

American Physical Society (and DGRAV): Member

American Astronomical Society: Member

Royal Astronomical Society: Fellow

Publications

22 peer-reviewed publications (of which 8 are first-author) with 317 citations, h-index 10.

Submitted and in preparation.....

S. R. Taylor, L. Lentati, S. Babak, P. Brem, J. R. Gair, A. Sesana, A. Vecchio. “*All correlations must die: Assessing the significance of a stochastic gravitational-wave signals in pulsar-timing arrays*”. Submitted to Physical Review D. arXiv:1606.09180.

S. R. Taylor, R. van Haasteren. “*Optimized anisotropic modelling of the nanohertz gravitational-wave sky with pulsar-timing arrays*”. (In Prep.)

Presentations

29 oral presentations (of which 10 were invited).

Invited talks.....

Jul 2016: New horizons in gravitational-wave astronomy with pulsar-timing arrays, Armagh Observatory seminar, Armagh, UK

Jul 2016: Probing the final-parsec problem with pulsar-timing arrays, Anton Pannekoek Institutt seminar, University of Amsterdam, Amsterdam, Netherlands

Jul 2016: Probing the final-parsec problem with pulsar-timing arrays, Radboud University astrophysics seminar, Radboud, Netherlands

Jun 2016: Gravitational-wave data-analysis techniques for pulsar-timing arrays, IPTA conference, Stellenbosch, South Africa

Mar 2016: Sources of nanohertz gravitational-waves for pulsar-timing array searches, NANOGrav student workshop, Caltech, Pasadena CA, USA

Dec 2015: Prospects for near future detection and astrophysical inference with PTAs, Gravitational-wave group seminar, University of Birmingham, UK

Dec 2015: Prospects for near future detection and astrophysical inference with PTAs, Statistics group seminar (School of Mathematics), University of Edinburgh, UK

Dec 2015: Prospects for near future detection and astrophysical inference with PTAs, CaJAGWR seminar, California Institute of Technology

May 2013: Searching For Anisotropic Gravitational-wave Backgrounds Using Pulsar Timing Arrays, Albert Einstein Institute (AEI) GW seminar, Hanover

Dec 2012: Weighing the evidence for a gravitational-Wave background, Gravitational-wave group seminar, University of Birmingham, UK

Contributed presentations.....

May 2016: Carrying the physics of supermassive black-hole binary evolution into pulsar-timing array searches, EPTA meeting, Bielefeld, Germany

Apr 2016: Are we there yet? Time to detection of nanohertz gravitational waves, American Physical Society meeting, Salt Lake City UT, USA

Mar 2016: Carrying the physics of supermassive black-hole binary evolution into pulsar-timing array searches, NANOGrav meeting, Caltech, Pasadena CA, USA

Oct 2015: Are we there yet? Time to detection of nanohertz gravitational waves, NANOGrav meeting, McGill University, Montreal, Canada

Jun 2015: Eccentric supermassive black-hole binary signals in pulsar-timing data, European Pulsar Timing Array meeting, Bonn, Germany

Apr 2015: Eccentric supermassive black-hole binary signals in pulsar-timing data, American Physical Society meeting, Baltimore MD, USA

Feb 2015: Eccentric supermassive black-hole binary signals in pulsar-timing data, NANOGrav meeting, Arecibo, Puerto Rico

Jan 2015: Exploring the cosmos with gravitational waves, American Astronomical Society meeting, Seattle WA, USA

Nov 2014: EPTA constraints on gravitational-wave anisotropy, European Pulsar Timing Array meeting,

Cambridge, UK

Jun 2014: EPTA and IPTA searches for gravitational-wave background anisotropy, International Pulsar Timing Array meeting, Banff, Canada

May 2014: EPTA limits on gravitational-wave anisotropy, European Pulsar Timing Array meeting, Astron, Netherlands

Oct 2013: The pulsar-term in PTA continuous-wave searches: a blessing and a curse, European Pulsar Timing Array meeting, Pula, Sardinia

Jul 2013: Probing anisotropy of the GW background with pulsar timing arrays, 20th International Conference on General Relativity and Gravitation and 10th Amaldi Conference on Gravitational Waves, Warsaw

Jun 2013: The first PTA search pipeline for anisotropy in the GW background, International Pulsar Timing Array meeting, Krabi, Thailand

Apr 2013: Searching For Anisotropic Gravitational-wave Backgrounds Using Pulsar Timing Arrays, European Pulsar Timing Array meeting, l'Observatoire de Paris, Paris

Feb 2013: Weighing the evidence for a gravitational-wave background, Institute of Astronomy seminar, University of Cambridge

Nov 2012: Weighing the evidence for a gravitational-wave background, European Pulsar Timing Array meeting, Albert Einstein Institute (AEI), Potsdam, Germany

Jun 2012: Milestones in Spacetime: Double Neutron-Star Binaries as Gravitational-Wave Standard Sirens, Institute of Astronomy seminar, University of Cambridge, UK

Feb 2012: Hubble without the Hubble: Cosmology using advanced gravitational-wave detectors alone, Gravitational-Wave Meeting, Institut de Ciències de l'Espai, Barcelona, Spain

Posters.....

Aug 2015: *Galactic environment effects on gravitational wave signals in pulsar timing arrays*, Postdoc Research Day, NASA Jet Propulsion Laboratory

Aug 2012: *Cosmology without EM counterparts: Standard sirens in the advanced era and beyond*, Rattle and Shine, KITP Santa Barbara

Dec 2011: *Cosmology using advanced gravitational-wave detectors alone*, Graduate Student Conference 2011, Cavendish Laboratory, University of Cambridge

Computer skills

OS: Linux/UNIX, Windows

Programming: C/C++, PYTHON, UNIX shell scripting, GPU programming (CUDA C, PyCUDA), particle-swarm algorithms, Monte Carlo and nested sampling algorithms

Typography: L^AT_EX, Bibtex, Microsoft Office, Pages, OpenOffice

Scientific: Mathematica, Matlab, PYTHON
