# **Stephen Taylor** | Curriculum Vitae

## **Education**

Institute of Astronomy, University of Cambridge

PhD (Astronomy)

University of Oxford

MPhys, First Class

Graduated  $4^{\rm th}$  in University

**Cambridge, UK** 2010–2014

Oxford, UK

2006-2010

## **Doctoral Thesis**

**Title**: Exploring the cosmos with gravitational waves

Supervisor: Dr. Jonathan R. Gair

Description:

# **Professional experience**

**NASA** Jet Propulsion Laboratory

NASA Postdoctoral Fellow

California Institute of Technology

Visting scholar (TAPIR group)

Pasadena

2014-Present

Pasadena

2014-Present

#### **Awards**

**2015**: International Pulsar Timing Array (IPTA) Steering Committee Prize — "Honourable Mention"

2015: Gravitational Wave International Committee (GWIC) Thesis Prize — "Honourable Mention"

2014: NASA Postdoctoral Fellowship (JPL)

2010: Science and Technology Facilities Council (STFC) PhD Studentship at IoA Cambridge

2007–2010: Undergraduate Scholar of Jesus College, Oxford

2008: Examiner's Prize, Oxford Physics Speaking Competition

2007: Oxford Physics department prize for laboratory work

2006–2010: Various Oxford undergraduate departmental and college examination prizes

# **Teaching experience**

Mar 2016: Co-organizer of student workshop at NANOGrav Spring meeting

2011–2013: Supervisor for Cambridge Part II undergraduate students in RELATIVITY

2011: Updated Cambridge Part II undergraduate computing projects from C to Matlab

## **Computer skills**

OS: Linux/Unix, Windows

**Programming**: C/C++, PYTHON

Typography: LATEX, Microsoft Office, Pages, OpenOffice

Scientific: Mathematica, Matlab, PYTHON GPU Programming: CUDA C, PyCUDA

### Outreach

**2013**: Presentation at the Institute of Astronomy Open Day

2012–2014: Presentation to prospective students (Institute of Astronomy graduate interviews)

2012: Outreach talk at Institute of Astronomy public-observing evening

2011: Presentation at the Institute of Astronomy Open Day

## **Professional affiliations**

American Physical Society: Member

APS DGRAV: Member

American Astronomical Society: Member

Royal Astronomical Society: Fellow

North American Nanohertz Observatory for Gravitational waves (NANOGrav): Full member

European Pulsar Timing Array (EPTA): Member International Pulsar Timing Array (IPTA): Member

## Recent presentations

\_\_\_\_\_

**Jun 2016**: *Gravitational-wave data-analysis techniques for pulsar-timing arrays*, IPTA conference, Stellenbosch, South Africa

**Apr 2016**: Sources of nanohertz gravitational-waves for pulsar-timing array searches, NANOGrav student workshop, California Institute of Technology, Pasadena CA, USA

Contributed talks.

May 2016: Carrying the physics of supermassive black-hole binary evolution into pulsar-timing array searches, EPTA meeting, Bielefeld, Germany

**Apr 2016**: Are we there yet? Time to detection of nanohertz gravitational waves, American Physical Society meeting, Salt Lake City UT, USA

Mar 2016: Carrying the physics of supermassive black-hole binary evolution into pulsar-timing array searches, NANOGrav meeting, California Institute of Technology, Pasadena CA, USA

Oct 2015: Are we there yet? Time to detection of nanohertz gravitational waves, NANOGrav meeting, McGill University, Montreal, Canada

**Jun 2015**: *Eccentric supermassive black-hole binary signals in pulsar-timing data*, European Pulsar Timing Array meeting, Bonn, Germany

**Apr 2015**: Eccentric supermassive black-hole binary signals in pulsar-timing data, American Physical Society meeting, Baltimore MD, USA

**Feb 2015**: Eccentric supermassive black-hole binary signals in pulsar-timing data, NANOGrav meeting, Arecibo, Puerto Rico

**Jan 2015**: Exploring the cosmos with gravitational waves, American Astronomical Society meeting, Seattle WA, USA

**Nov 2014**: *EPTA constraints on gravitational-wave anisotropy*, European Pulsar Timing Array meeting, Cambridge, UK

**Jun 2014**: EPTA and IPTA searches for gravitational-wave background anisotropy, International Pulsar Timing Array meeting, Banff, Canada

May 2014: EPTA limits on gravitational-wave anisotropy, European Pulsar Timing Array meeting, Astron, Netherlands

**Jun 2014**: EPTA and IPTA searches for gravitational-wave background anisotropy, International Pulsar Timing Array meeting, Banff, Canada

Oct 2013: The pulsar-term in PTA continuous-wave searches: a blessing and a curse, European Pulsar Timing Array meeting, Pula, Sardinia

**Jul 2013**: Probing anisotropy of the GW background with pulsar timing arrays, 20th International Conference on General Relativity and Gravitation and 10th Amaldi Conference on Gravitational Waves, Warsaw

**Jun 2013**: The first PTA search pipeline for anisotropy in the GW background, International Pulsar Timing Array meeting, Krabi, Thailand

**Apr 2013**: Searching For Anisotropic Gravitational-wave Backgrounds Using Pulsar Timing Arrays, European Pulsar Timing Array meeting, l'Observatoire de Paris, Paris

**Nov 2012**: Weighing the evidence for a gravitational-wave background, European Pulsar Timing Array meeting, Albert Einstein Institute (AEI), Potsdam

**Feb 2012**: Hubble without the Hubble: Cosmology using advanced gravitational-wave detectors alone, Gravitational-Wave Meeting, Institut de Ciències de l'Espai, Barcelona

Seminars.

**Dec 2015**: Prospects for near future detection and astrophysical inference with PTAs, Gravitational-wave group seminar, University of Birmingham, UK

**Dec 2015**: Prospects for near future detection and astrophysical inference with PTAs, Statistics group seminar (School of Mathematics), University of Edinburgh, UK

**Dec 2015**: Prospects for near future detection and astrophysical inference with PTAs, CaJAGWR seminar, California Institute of Technology

May 2013: Searching For Anisotropic Gravitational-wave Backgrounds Using Pulsar Timing Arrays, Albert Einstein Institute (AEI), Hanover

**Feb 2013**: Weighing the evidence for a gravitational-wave background, Institute of Astronomy seminar, University of Cambridge

**Dec 2012**: Weighing the evidence for a gravitational-Wave background, University of Birmingham **Jun 2012**: Milestones in Spacetime: Double Neutron-Star Binaries as Gravitational-Wave Standard Sirens, Institute of Astronomy seminar, University of Cambridge

Posters.....

**Aug 2015**: Galactic environment effects on gravitational wave signals in pulsar timing arrays, Postdoc Research Day, NASA Jet Propulsion Laboratory

**Aug 2012**: Cosmology without EM counterparts: Standard sirens in the advanced era and beyond, Rattle and Shine, KITP Santa Barbara

**Dec 2011**: Cosmology using advanced gravitational-wave detectors alone, Graduate Student Conference 2011, Cavendish Laboratory, University of Cambridge
